

DOMETIC® ELITE 2+2 REFRIGERATOR

Twice the convenience! Twice the style! Dometic's Elite™ 2+2 refrigerator sets a higher standard for RV refrigeration. Unlike other dual-door refrigerators, the Elite features a divider-less freezer compartment that provides wall-to-wall cooling for even the bulkiest items. With its upscale refinements and striking appearance, you can take home-style convenience and luxury with you wherever you go. But that's what you'd expect from Dometic. We invented RV refrigeration almost three-quarters of a century ago, and we've been perfecting it ever since!

Wall-to-Wall Cooling Power

The true test of an RV refrigerator is how much capacity you can actually use. The Elite's wide, pass-through freezer means you can use every cubic inch. There's no space-robbing

vertical divider to get in the way. Add in three vegetable crispers, dual-action shelf guards and a bigger, more powerful cooling unit and you'll see why the Elite is America's choice in full-featured RV refrigeration.

Great Looks and Performance to Match

With its satin stainless steel or glossy black finish, the Elite combines good looks with the performance you need. The Elite's patented automatic locking system securely locks its doors whenever the RV's ignition is turned on. And with its large and powerful cooling unit, fully adjustable shelves, through-the-door ice water and optional ice maker, the Elite lets you entertain friends and family in style.

Applications

Motorhomes • Fifth wheels

Advanced Design

Automatic door lock. Another patented, industry-changing innovation from Dometic! The Elite automatically locks its doors whenever the RV's ignition key is turned on.

Bigger, more powerful cooling unit. Compare for yourself. The Elite has the most powerful cooling unit this side of the North Pole.

Contemporary styling. With its upscale appearance, the Elite will be the centerpiece of any RV's kitchen.

Convenience That Counts

Pass-through freezer stores even the bulkiest items with ease.

Three crispers hold more food and keep it fresher longer.

Dual-way shelf guards hold jars and bottles securely. No more spills!

Through-the-door ice water reduces energy consumption.

Optional ice maker means you'll always have ice on hand.

Over the years of running a mobile RV repair service, having a dedicated place to access service manuals for all the different appliances and components found on RVs was something that I always had a desire to create.

I hope this resource makes your RV repairs easier, as it has mine, but please be careful and follow proper safety practices when attempting to repair your own RV.

If in doubt, please consult with a professional RV technician!
