

How to Figure BTU Usage

By the Pound (lb.)

BTU'S per lb. \div BTU Usage = How long

By the Gallon (gal.)

BTU'S per gallon \div BTU Usage = How Long

Facts

BTU per Gallon of Propane @ 60 F = 91690

BTU per Pound of Propane = 21591

Btu Usage of RM2852 = 1500

BTU Usage of RM2552 = 1080

Get your BTU Usage from Bulletin 28/G7
(Rev. February 1997) for other refrigerators

Example 1

How long will a RM2852 operate on one Gallons of L.P. ?

$91690 \div 1500 = 61.1$ Hours Continuous Operation on High Flame.

Example 2

How long will a RM2552 operate on one pound of L.P. ?

$21591 \div 1080 = 19.9$ hours continuous on High Flame

Over the years of running a mobile RV repair service, having a dedicated place to access service manuals for all the different appliances and components found on RVs was something that I always had a desire to create.

I hope this resource makes your RV repairs easier, as it has mine, but please be careful and follow proper safety practices when attempting to repair your own RV.

If in doubt, please consult with a professional RV technician!
