

Annual Maintenance Record Coupon

Please enclose the following maintenance records identifying the date, description of UNIT, and services performed.

- Inspect roof and seal roof where necessary.
- Inspect axles and hub, lube where necessary.
- Inspect furnace – clean blower, combustion chamber, control compartment (remove any dust, lint, obstructions) as necessary, test gas line for leaks.
- Inspect hot water heater – flush holding tank, manually operate pressure temperature relief valve, clean burner tube (as outlined by the manufacturer) as necessary.
- Inspect suspension and lubricate where necessary – grease front and rear suspension components, including, but not limited to, axle bearings, tie rods, control arms, and brake camshaft brackets (motorhomes only).

www.myrvworks.com/manuals

Over the years of running a mobile RV repair service, having a dedicated place to access service manuals for all the different appliances and components found on RVs was something that I always had a desire to create.

I hope this resource makes your RV repairs easier, as it has mine, but please be careful and follow proper safety practices when attempting to repair your own RV.

If in doubt, please consult with a professional RV technician!

DARREN KOEPP - OWNER, MY RV WORKS, INC.
