Quick Reference Guide # 3

Wiring of Motor 4280P with Mechanical Limits (2-wires, 2nd Generation):

On some coaches the color of some wires may be different than shown below; for any questions regarding this, either contact your OEM’s service department or Auto-Motion Shade technical services.

Note: A 6-ft wire comes with the motor, including Molex connector.
Over the years of running a mobile RV repair service, having a dedicated place to access service manuals for all the different appliances and components found on RVs was something that I always had a desire to create.

I hope this resource makes your RV repairs easier, as it has mine, but please be careful and follow proper safety practices when attempting to repair your own RV.

If in doubt, please consult with a professional RV technician!

DARREN KOEPP - OWNER, MY RV WORKS, INC.
